SKILLS

PROGRAMMING

Python and iPython Notebook
R
JavaScript, HTML, and CSS
MySQL
Matlab
...

MACHINE LEARNING

Regression
Support Vector Machines
Naive Bayes
K-Nearest Neighbors
Decision Trees
Cluster Analysis
Natural Language Processing
...

DEEP LEARNING

Neural Networks
CNN
GNN
RNN
GANs
Encoder & Decoder
Transformers
...

SOFTWARE

Rapid Miner
Cvat
Label Studio
Canva
Figma
ML Studio
L^AT_EX
...

OPERATION SYSTEMS

Linux (Expert)
Windows

PLATFORMS

Anaconda
NVIDIA™NEMO
Git
GitHub
Docker
LibRecommender
Cornac

EXPERIENCE

FARAGOSTAR | AI ENGINEER

Apr 2025 – Present | Tehran, Iran (Hybrid)

- Developed and optimized Persian RAG systems using LangChain and LangGraph.
- Implemented and deployed enterprise-scale OCR, Summarizer, Feature Extraction, and Letter Writer services.
- Improved TTS and ASR systems via model fine-tuning and prompt optimization.
- Integrated LLMs (Qwen, Aya, Gemma, LLaMA) on Docker, Ollama, and VLLM infrastructure.
- Designed AgentCore and Agentic Systems with long-term memory and interactive graphs.
- Managed infrastructure including Docker networking, Kong API Gateway, PostgreSQL, and SQL Server.
- Fine-tuned Persian TTS and ASR models (Mana) and built training/evaluation pipelines.
- Fully documented services, managed Git repositories, and maintained clean codebases.

DEMIS | AI SPECIALIST

Feb 2025 – Apr 2025 | Isfahan, Iran

- Speech-to-text project.
- AI-powered medical assistant project.

ENTEKHAB INDUSTRIAL GROUP | AI SPECIALIST

Nov 2023 – Apr 2024 | Isfahan,Iran,SnowaTec

- RAG For Instruction Manuals
- Food Recommender System Using TelegramBot (available on Github)
- Feature Extraction and Name Entity Recognition by Fine-Tuning Language Models
- Text Generation And Feature Extraction Using LLMs
- Building Translation Models Using Transformers
- Developing Food Recommender System Based On Food Ingredients
- ASR, TTS, LLMs AND Generative AI Using NVIDIA™NEMO
- Digikala And Amazon Products User Comments Gathering And Analyzing (available on Github)
- ...

ENTEKHAB INDUSTRIAL GROUP | TECHNOLOGY FORECAST EXPERT

Sep 2022 – Nov 2023 | Isfahan,Iran,SnowaTec

- Monitoring artificial intelligence centers of companies related to household appliances (Bosch, Samsung, LG, etc.)
- Examining The Structure of Artificial Intelligence Platform and Online Services of Prominent Home Appliance Companies
- Patent Search
- Benchmark Smart Home appliances and Future Trends
- ...

INTERESTS

RESEARCH INTERESTS

Large Language Models
Recommender Systems
SAR & ISAR Image Processing
AI Futurology
Policy making in Artificial Intelligence
Industry 4.0

HOBBIES

Photography
Cycling
Running
Theater
Cinema

RECENT TECH STACK

Languages & Frameworks: Python (FastAPI, Flask, Streamlit), JavaScript (Node.js), HTML/CSS, Bash Script
Infrastructure & Deployment: Docker, Docker Compose, Docker Swarm, Ollama, VLLM, Llama Factory, Kong API Gateway, DEC, Nginx, Apache Server, Cloudflare, SQL Server, PostgreSQL, pgAdmin
Machine Learning & LLMs: LangChain, LangGraph, HuggingFace Transformers, PyTorch, TensorFlow, NVIDIA NEMO, Sentence Transformers, Whisper, Qwen, Aya, LLaMA, Gemma, Mistral, GPT API, Cohere
Image & Text Processing: OpenCV, Tesseract OCR, OCR Pipelines, Feature Extraction, Summarizer, Validation Services, Synonym Generator
Data Management & Model Training: Fine-tuning Pipelines, PEFT, Flash Attention, Data Preprocessing (ASR, OCR, TTS), Anaconda, Pandas, NumPy
Version Control & Documentation: Git, GitHub, Markdown, LaTeX, structure.md, README Optimization
Development & Testing Tools: VS Code, Postman, API Explorer, Gradio, Flake8, LM Studio

LANGUAGES

Persian (Native)
English (Dominate)

IRANSMARTTECH | CONTENT CREATOR AND WEBSITE DESIGNER
2021 – 2022 | Isfahan,Iran

- Design elements and posters with Photoshop
- Website Developer Using Wordpress

FARDA SANJESH SARMAVEH(FSSCO.) | WEBSITE DESIGNER
2017 – 2018 | Isfahan,Iran

- Website Developer Using Wordpress

EDUCATION

UNIVERSITY OF ISFAHAN | MSC IN ARTIFICIAL INTELLIGENCE
2022 – 2024 | Isfahan,Iran

- Advanced algorithms, Advanced calculation theory, Advanced Artificial Intelligence, Machine learning, Theoretical foundations of cryptography, Computational data mining, Deep learning
- Health-aware Food Recommender System (Thesis)
- Big Data Recommender Systems Using TwoTower, DeepFM, Wide & Deep, etc...
- Health Knowledge Food Recommender System For North American Culture
- Review On Food Recommender Systems
- Big Data Preprocessing For DL and ML purpose

UNIVERSITY OF ISFAHAN | BSC IN COMPUTER SCIENCE
2017 – 2021 | Isfahan,Iran

- Computer basics and programming, Advanced Programming, Basics of Mathematical Sciences, General Mathematics 1,2, Principles of Computer Systems, Basics of Combinations, Basics of Matrices and Linear Algebra, Basics of Logic and Set Theory, Fundamentals of Numerical Analysis, Principles of Operating Systems, Designing and Analyzing Algorithms, Mathematics Database, Bases of Probability, Differential Equations, Linear Optimization, Theory of Calculation, Basics of Algebra, Encryption, Coding Theory, Latex, Matlab, Special Topics in Computer Science(Artificial Intelligence), Logic Circuits

HONORS & PUBLICATIONS

- Top 15% graduate in BSc cohort – University of Isfahan.
- Paper: “Healthy Food Recommender via Dietary Habit Data Mining” – 15th International Conference on Information and Knowledge Technology (IKT).

BOOKS AND COURSES

BOOKS

- Data Mining: Concepts and Techniques(by Jiawei Han)
- Introduction to Algorithms(CLRS)
- Artificial Intelligence - A Modern Approach (2010, Prentice Hall)
- Decision Support Systems for Business Intelligence, 2nd Edition (2010, Wiley)
- Matrix Methods in Data Mining and Pattern Recognition (Lars Eldén)
- Deep Learning with Python (by François Chollet)

COURSES

- Git - GreatLearning (Certified)
- LLM Hackaton - Quera (Certified)
- Data Science Foundations Data Mining -Lynda
- R Programming AZ R For Data Science With Real Exercises - Udemy
- Learn the 2020 Advanced Python Programming - Udemy
- CS50AI 2023 - Harvard
